Mad Science of Maine

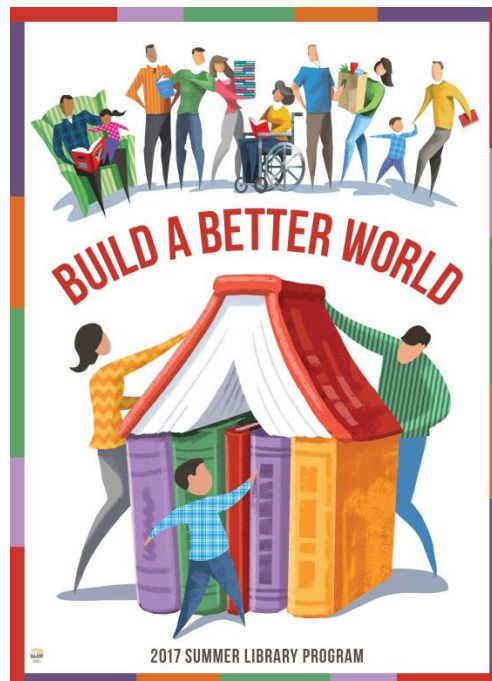

“Engineering a Better World”

Tuesday, June 27th

10am-11am

At the Center for All Seasons

Join us for an interactive children’s show that explores the fields of mechanical, aeronautical, aerospace, chemical, robotics, civil and renewable energy engineering. We’ll look at hover boards and robots as well as the concepts behind self-driving cars and much more.

Sponsored by the Maggie Schneider Fund
and the Belgrade Public Library
