

# **Mad Science of Maine**

## **“Sounds Like Science”**

**Tuesday, July 17th**

**10am-11am**

**At the Center For All Seasons**

Pitch, Frequency, Vibrations, Oh my! Meet our Mad Science Maestro as we explore the science of sounds. We will pump up the volume with a special science rap and open ears and eyes as we use light to send music across the room. Explore sound as it travels through solids, liquids, and gases and listen to the beautiful tones of Mad Science resonance tubes. Join us on a trip through the jungle as we recreate the roaring sounds of several animals. Find out how hot sound can be as it rises out of our Singing Pipe and flaming didgeridoo's. Discover how hilarious sound waves can be when they are manipulated using our sound machine! After some thunderous applause, the Mad Science Conductor will need your help to recreate an indoor thunder storm.

For more information, call (207) 495-3508.
